

# SHARP SUMMER STUDENTSHIP PROGRAMME

Scottish Heart and Arterial Risk Prevention (SHARP) are inviting medical students from Scottish Universities to apply for a summer studentship programme funding.

The aim of this funding is to enable medical students to undertake clinical or pre-clinical research in any area of Cardiovascular Medicine during the summer break and in so doing, develop academically and strengthen their career prospects in.

A bursary of £1000 will be available for each recipient. Project duration may exceed the summer vacation period. However, the funding per award is fixed. Scholarships are not intended to fund a student's normal degree course (e.g., BMSc). For this year (2023), applications for funding ongoing projects that require additional funding will also be accepted.

Students should seek supervisors and jointly apply with a clear indication of the proposed work, timescales and expected outcomes. Applications should be completed on the online SHARP Summer Studentship Application Form which can be downloaded from the SHARP website, [www.sharpscotland.org/grants](http://www.sharpscotland.org/grants).

Following completion of the SHARP Summer Studentship, a short report (250 words) on the project must be completed by the supervisor and student. This should be in Word or pdf format and emailed to the SHARP office ( [SHARP@dundee.ac.uk](mailto:SHARP@dundee.ac.uk) ).

All outputs from the proposed research must acknowledge the role of SHARP as funder. The SHARP office ([SHARP@dundee.ac.uk](mailto:SHARP@dundee.ac.uk)) must also be informed of any accepted manuscripts/posters or presentation arising from this work.

**CLOSING DATE FOR 2023 APPLICATIONS:**  
**THURSDAY 15TH JUNE 2023 AT 17:00**
